AI & Data Science student with hands-on Full Stack Web Developer experience, seeking a Full Stack or AI-adjacent role where I can apply web development, and programming knowledge to build impactful products while contributing to organizational growth.

SKILLS

Core Python, HTML, CSS, JavaScript, React.JS, Core SQL, Deployment: Render, Netlify, Git & GitHub

EDUCATION

B.Tech in Artificial Intelligence and Data Science

June 2024 – May 2027

Annamacharya Institute of Technology and Sciences | CGPA: 8.2

Diploma in Computer Engineering

June 2021 – April 2024

Geethanjali Institute of Science and Technology | 79.42%

Class X – CBSE

June 2020 – April 2021

Narayana High School | 75%

WORK EXPERIENCE

Web Developer Intern

Edu-versity in collaboration with Extech Digital and Alcheringa IIT Guwahati

June 2025 – August 2025

- Built a Result Management System using the MERN stack, Python, and SQL for student, subject, and result workflows.
- Developed responsive Admin and Student dashboards with role-based access, authentication, password management, and reusable React components.
- Integrated mock APIs and used React Context API to manage application state during development and testing.

PROJECT

Result Management System

React.js · JavaScript · React Context API · Render

- Designed and implemented Admin and Student dashboards with role-based access control
- Built reusable UI components using React.js and managed global state with Context API
- Added authentication, password management, and seamless mock API integration

CERTIFICATIONS

- Full Stack Web Development Internship – Edu-versity & Extech Digital (2025)
- Letter of Recommendation – Full Stack Web Development Internship
- Data Science Internship Certificate – Pantech e-Learning (2 Months)

ACTIVITIES

- Participated in essay writing competitions at school and college level
